Association

HASLA

About Organization

- ▶ Established in 2003.
- ▶ Represent business operators in the manufacturing, transportation and service providing sectors with various types of hazardous substances.
- ▶ Communicate requirements to relevant government units and agencies.
- ▶ Collaborate with the government sector and business operators to effectively solve members' problems.

Vision

Earn the trust and acceptance of hazardous substances manufacturers, transporters and related enterprises in Thailand as the business operation center for promoting safety, health and environment for sustainable development with utmost benefit for the community.

Mission

- ▶ Promote and support members to ensure compliance with related laws and regulations.
- ▶ Develop efficiency in hazardous substances logistics management for sustainable development.
- ▶ Identify problems and issues and offer efficient solutions for members.
- ▶ Serve as focal point for publicizing and exchanging useful information and opinions among members.
- ▶ Promote and encourage production of guidelines on safe transportation of dangerous goods.

Benefits for Members

- Submit problems, complaints and obstacles in business operations as well as give effective suggestions. HASLA compile and forward members' inputs to relevant government agencies or units to seek efficient solutions.
